3. Due to numerous alternate routing possibilities very little transmission delay should be encountered during the test exercise. However, it is recommended that where the possibility of a delay is unacceptable, because of operational considerations, the precedence OPERATIONAL IMMEDIATE be assigned. Extreme care should be exercised in the use of the higher precedence to avoid drawing attention to the areas and activities concerned. The Chief, the Chief, FE, the Signal Center and the Cable Secretariat have been apprised of the foregoing.

4. To preserve the desired element of surprise and realism, it is requested that the number of persons informed of the exercise be kept to a minimum.
